3-K 270° Semi-Concealed Hinge

SPECIFICATIONS

Collection Name: Hinges

Type: Hardware

Purpose: Allows 270° Hinging Access of Doors

Finish: Nickel

Length: See Below

Width: See Below

Projection: See Below

Reveal: 1/8"

Other: 3-Knuckle, Aximat 300 Single Pivot Institutional Hinge

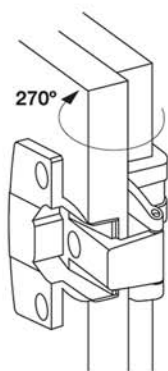

The Aximat™ 300 is a re-design and improved version of a relatively common institutional hinge. The improved version of the Aximat™ offers a decorative exposed knuckle for a sleeker, more stylish look, the adjustability to align doors, a wider degree of opening (270°: allowing for the door to pivot completely out of the way) and it is much more heavy duty. The Aximat™ 300 is the only 3-way adjustable clip-on hinge on the market which meets the tough requirements of the ANSI/BHMA Grade 1 Standard.

Advantages:

- Hinges have “Self-Closing” integrated door catch, no additional door catches required

Applications:

- Schools, retail environments, healthcare & laboratory furniture, offices, lockers, garage storage cabinets, etc.

Full Overlay
19 mm (3/4")

Door overlay 15 mm +
knuckle 4 mm = 19 mm (3/4")
